

Embedding Language in the Early On Setting

Resources

- ASHA.org
 - The American Speech, Language, and Hearing Association (ASHA) provides numerous resources for professionals and parents regarding normal speech and language development, as well as the roles and responsibilities of speech-language pathologists in the early on setting.

- Hanen.org
 - The Hanen Centre is a Canadian-based program that provides education and support to parents, teachers, and therapists of children with language delays.

- Bowen, C. (1998). Typical speech development: the gradual acquisition of the speech sound system. Retrieved from <http://www.speech-language-therapy.com/acquisition.html> on February 24, 2010.
 - The cite listed above provides resources and information on typical age of speech sound development and phonological process suppression.
